

Decorative design 'now'

Decorative design 'then'

Art Nouveau will be our main influence for this project as it permeated all 3 countries in WW1 as a world leading design movement.

We propose to create 'hangings' simply cut out of paper. The hangings will reflect nature as this was the main source of inspiration for the 'Art Nouveau Movement'.

We will need some black rolls of paper and possibly some more cutting mats to allow all pupils in each section to work collaboratively. Working together side by side will be the main ethos of the workshops.

Pupils will be photographed while working and their finished creations will be photographed hanging from trees, windows etc...

We will need the full allocation of time suggested i.e. 2 hours slots.

I will email you a cost of equipment. It should be very reasonable.
